These reports allow you to quickly and visually compare all the training sessions you have carried out on the same day under similar conditions.

Thanks to the tables and colours, it is easy to highlight the horses that stand out based on key parameters that you have determined ahead of time.

The reports can be sent to you automatically by email or via WhatsApp. Simply change the settings on the EQUIMETRE platform.

Splits Table

This report is triggered for trainings with the best 600m/3F below 60 seconds. The fastest horses over 600m are ranked at the top of the table. Splits > 20 seconds are not displayed, and only those < 15 seconds are coloured blue. The darker the blue, the faster the split.
